## Step by Step Guide:

## Putting USFS Motor Vehicle Use Maps on your Smartphone

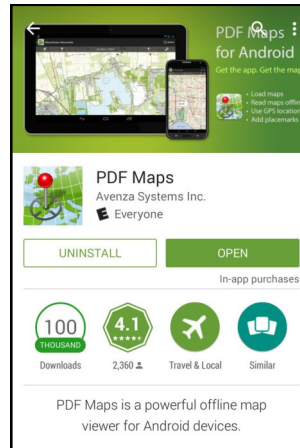

Android and Iphone

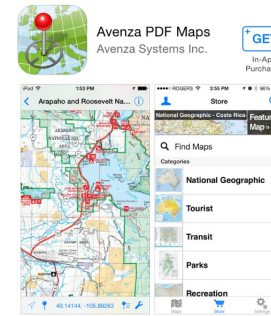

## How to load map onto your phone:

1. Go to Google Play Store or Apple App Store.
2. Search "PDF Maps", by Avenza Systems, Inc.
3. Download the FREE app.
4. To search maps, click on the shopping cart.
5. Click on "Find Maps".
6. To find the correct Motor Vehicle Use Map, search by name:
  - \* "Custer NF" or "Gallatin NF"
  - \* Or specifically by name of district (see inside fold of this brochure)
7. Select "List View" to see maps easier.
8. Select the map and click "Install"
9. Hit the "back arrow" twice to get to your installed map page and to see the download progress. The map downloads and is stored directly on your phone.
10. The map is now available to view on your phone. Click the map to open and view it.

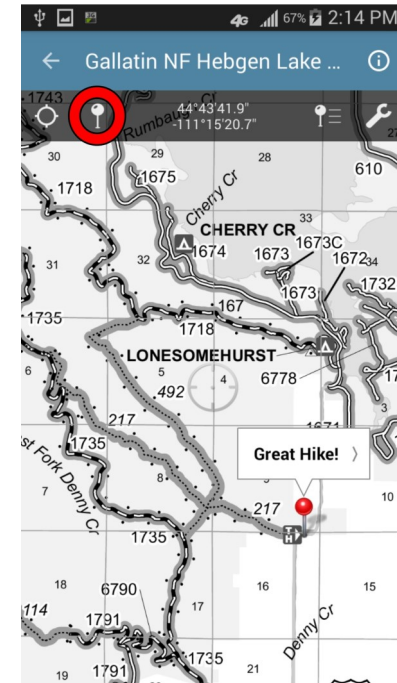

Because the map is downloaded to your phone, you **do not need cell phone reception** to view the map!

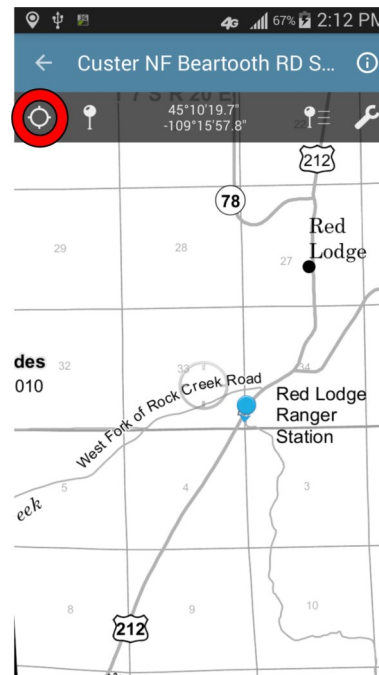

Google Play Store Screen

Apple App Store Screen

Want to remember a location? Drop a pin, attach a photo to that location, or use it to save GPS coordinates.

The maps Geo-locate, which means it will show you where you are on the map!

Click the upper left icon to show your location. No cell phone reception is needed. Just make sure your phone GPS is turned on!

There are many options for charting your course, measuring distances, etc.
